

# SIMIAN INTERNATIONAL

## Capability Statement

Simian International provides a range of services to meet the diverse needs of the scaffolding and work at height industry across the globe.

With a reputation for our world-renowned scaffolding training and health and safety consultancy we are the global experts specialising in workplace access and working at height.

## WHAT WE DO.

We offer a complete range of scaffold safety services to our international clients including training, supervision, mentoring, inspection, safety consultancy and coordination.

Our unrivalled industry knowledge and pragmatic approach ensures clients benefit from the highest service standards.

Our highly skilled scaffolding consultants are committed to Simian's vision of instilling a safe operating culture throughout global construction, infrastructure and industrial environments.

## OUR HISTORY.

Simian was established in 2005 and Simian International came about in 2008 when we were awarded our first overseas contract in Angola. Since then Simian International, led by Ian Fyall, has taken the Simian Group vision global.

We now boast bases in the UAE and Africa and have contracts as far afield as Nigeria and the oil fields in Iraq, as well as work on groundbreaking projects such as the Shell Prelude in South Korea. We work with Partners from all over the world including China, Dubai, India, Iraq, Nepal, Nigeria, Oman, Qatar, Saudi Arabia, Trinidad and Tobago, UK

Simian Group was key in establishing the International Scaffolder Scheme to provide a recognised training qualification for scaffolding operatives, supervisors and inspectors operating globally. Simian International offers this recognised training as well as bespoke training at our dedicated centres or at locations to meet client needs.

## SCAFFOLD SUPERVISION.

We can provide scaffolding supervisors on the ground for specific projects. Whatever the shape, size, scope or duration of the project we can provide a qualified professional to make sure that work runs safely, smoothly and on-time.

## SCAFFOLD PROJECT MANAGEMENT.

We offer a professional project management service to ensure projects involving scaffolding or work at height are professionally managed.

## SCAFFOLDING TRAINING.

We offer a range of internationally recognised scaffolding training designed for all levels of personnel at various stages of their careers.

## SCAFFOLDING INSPECTION.

With years of experience and highly qualified staff we can provide independent and ad hoc scaffold inspections in locations worldwide.

## SCAFFOLDING H&S CONSULTANCY.

Our health & safety consultancy service provides competent and expert advice from qualified scaffolding professionals. Our work is sought after around the globe as we can offer the exacting standards that our international clients often aspire to.

# AT THE LEADING EDGE OF HEIGHT SAFETY.
