“We aim to prevent accidents, injuries and health through education and training”

ACCREDITING BODIES

INTERNATIONAL SCAFFOLDERS TRAINING

Simian developed this scaffold accreditation in 2011 to cover remote countries who don't have CISRS accreditation. It has been operated in Iraq, Cameroon, Russia and China.

International Scaffolders

We recognise the need for employers to be able to demonstrate evidence of training and competence.

This scheme has been designed to provide a recognised training qualification for:

- Scaffolding Operatives
- Scaffolding Supervisors
- Scaffold Inspectors
- Others who need to raise their levels of skill, knowledge and awareness of access and Scaffolding.

The International Scaffolders scheme exists where no CISRS centres are in place. In most cases training and assessment can be carried out either at our training centres or on site at client's premises, providing they have suitable training facilities and equipment. Note that some of the more complex training, such as the Advanced Scaffolders, needs to be completed at our specially equipped scaffolder training centres. Candidates who successfully pass our training courses will receive our International

Scaffolders Certificate and Cards.

International certificates and record cards are valid for 5 years from the date the training was completed.

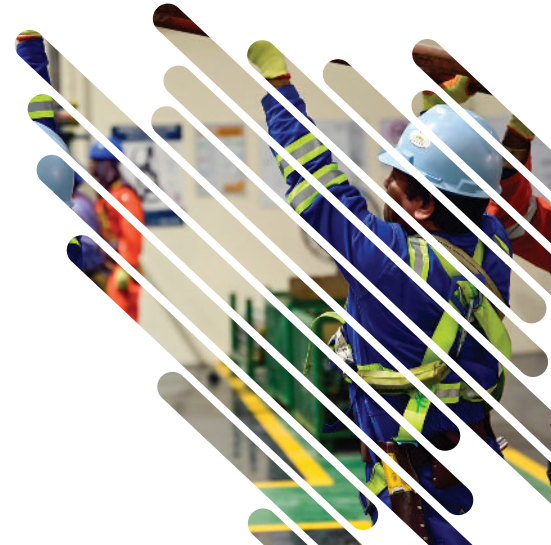

Certificates and Record Cards can be renewed by completing a 2 Day scaffolding Update Course.

Certification, record cards & database All attendees that successfully complete our training courses will receive a certificate of achievement and a International Card as a demonstrable record of their training when on site.

They also agree to have their training records held on a central database that can be viewed by potential employers and clients to verify their personal training record.

We developed our website to provide secure access by clients and employers, to allow them to authenticate and verify training records online via our website.

In addition to the online verification and to further help overcome fraud and counterfeiting the training certificate has a unique certificate number, is printed with a photograph of the candidate and also their passport number.

INTERNATIONAL BASIC SCAFFOLDER

Duration
5 days

Attendees
This course is aimed at trainee scaffolders who require basic scaffolding skills training. Carried out at our approved centre or on client's sites.

Objectives
To give the attendees such knowledge and skills to enable them to erect, alter and dismantle basic scaffolding structures in traditional tube and fitting and common system scaffolds.

Certification
Successful delegates will receive a 'International Scaffolder' Certificate of Training and an 'International Scaffolder Record Card for Basic Scaffolder'.

Scaffolders can progress to Intermediate Scaffolder after 6 months' further experience.

Course Content

- Statutory Regulations and Codes of Practice
- BS EN 12811 and TG20
- Safe Handling and Inspection of Materials Manual Handling
- Preventing Falls in Scaffolding (SG4)
- Safe Use and Inspection of Safety Harnesses
- Ropes, Knots and Hitches
- Types and Uses of Tube, Fittings and Boards
- Assessing Material Requirements for Basic Scaffolds
- Safe Access Methods
- Interpretation of Simple Drawings
- Erect and Dismantle Basic Scaffolds:
 - Independent (With Return)
 - Tower (Static and Mobile)
 - Birdcage
- Alterations to Scaffolds
- Skills Test (Practical)
- Knowledge Test (Theory)

INTERNATIONAL INTERMEDIATE SCAFFOLDER

Duration

This course can be undertaken over 10 days or split into 2 × 5 Days (Part A and Part B)

Attendees

Delegates must complete the International Basic Scaffolder 5 day course and held the certificate for at least 6 months. Carried out at our approved centre or on client's sites.

Objectives

To give the attendees such knowledge and skills to enable them to erect, alter and dismantle scaffolding structures of an intermediate complexity in traditional tube and fitting and common system scaffolds.

Certification

Successful delegates will receive a 'International Scaffolder' Certificate of Training and an 'International Scaffolder' Record Card for

Course Content

- Statutory Requirements & Codes of Practice
- BS EN 12811 and TG20
- Safe Handling and Inspection of Materials (Manual Handling)
- Preventing Falls in Scaffolding (SG4)
- Basic Scaffolder Skills Test
- Assessing Material Requirements for Intermediate Scaffolds
- Skills Test (Practical)
- Knowledge Test (Theory)
- Erect and Dismantle Intermediate Scaffolds:

Practical Units

Part A

- Bridging with Beams
- Protection Fans
- Loading Bays
- Staircases

Part B

- Lifting Frames
- Gantry
- Splay/Radial
- Ramps

INTERNATIONAL ADVANCED SCAFFOLDER

Duration

10 days This course can be undertaken over 10 days or split into 2 x 5 Days (Part A and Part B)

Attendees

Delegates must complete the International Intermediate Scaffolder 10 day course and have held the certificate for at least 12 months. Can only be undertaken at an approved International Scaffolder Training Centre.

Objectives

To give the attendees such knowledge and skills to enable them to erect, alter and dismantle scaffolding structures of an advanced complexity in traditional tube and fitting and common system scaffolds.

Certification

Successful delegates will receive a 'International Scaffolder' Certificate of Training and an 'International Scaffolder' Record Card for Advanced Scaffolder.

Course Content

- Statutory Regulations and Codes of Practice
- BS EN 12811 and TG20
- Safe Handling and Inspection of Materials (Manual Handling)
- Preventing Falls in Scaffolding (SG4)
- Basic Scaffolder Skills Test
- Design Appreciation
- Assessing Material Requirements for Advanced Scaffolds
- Erect and Dismantle Advanced Scaffolds

Practical Units

Part A

- Cantilever Truss-out Scaffolds
- Dead Shore
- Temporary Building/Roofs

- **Skills Test (Practical)**
- **Knowledge Test (Theory)**

Part B

- Cantilever Drop-lift Scaffolds
- Suspended Scaffold

INTERNATIONAL BASIC SCAFFOLD INSPECTION

Duration
3 days

Attendees

This course is aimed at those who are required to carry out safety inspections for basic access, working and special scaffolds.

Objectives

To give the attendees such knowledge and skills to enable them to inspect basic access, working and special scaffolds and complete safety inspection reports.

Certification

Successful delegates will receive a 'International Scaffolder' Certificate of Training and an 'International Scaffolder' Record Card for Basic Scaffold Inspector.

Course Content

- Introduction to Scaffolding & Scaffolding Terminology
- Statutory Requirements & Codes of Practice
- International Standards (British, European, US & Local)
- International Best Practice & Industry Standards (NASC)
- TG20
- Overview of Fall prevention in Scaffolding (SG4)
- Manual Handling (SG6)
- Tube, fittings & boards
- Safe access and egress
- Scaffolders training and working methods
- Bracing and tying scaffolds
- Mobile, Static and loading towers
- Birdcage Scaffolds
- Beams and bridging beams
- Public protection
- Various types of system scaffolding
- How to carry out a scaffolding inspection
- Scaffold Inspection Reports
- Scaffold Tagging system
- Scaffold Inspection Exercises
- Knowledge Test and Assessment

INTERNATIONAL ADVANCED SCAFFOLD INSPECTION

Duration

2 days

Attendees

This course is aimed at those who are required to carry out safety inspections for complex designed access, working and special scaffolds. Candidate need to complete International BSI prior to attend ASI

Objectives

To give the attendees such knowledge and skills to enable them to inspect complex designed access, working and special scaffolds and complete safety inspection reports.

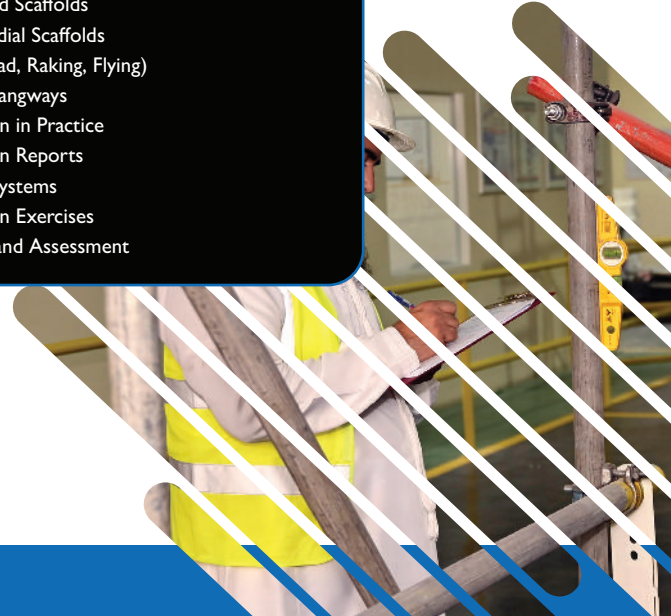

Certification

Successful delegates will receive a 'International Scaffolders' Certificate of Training and an 'International Scaffolders' Record Card for Advanced Scaffold Inspector.

Course Content

- Statutory Requirements & Codes of Practice International Standards (British, European, US & Local)
- International Best Practice & Industry Standards (NASC)
- TG20
- Overview of Fall prevention in Scaffolding (SG4)
- Manual Handling (SG6)
- Overview of Fall prevention in scaffolding
- Advanced Component Information
- Review of Basic Structures
- Scaffold Design Overview & Interpreting Drawings
- Advanced Scaffold Structures (Including):
 - Suspended Scaffolds
 - Cantilevered Scaffolds
 - Splayed/ Radial Scaffolds
 - Shores (Dead, Raking, Flying)
 - Ramps & Gangways
- Scaffold Inspection in Practice
- Scaffold Inspection Reports
- Scaffold Tagging Systems
- Scaffold Inspection Exercises
- Knowledge Test and Assessment

INTERNATIONAL SCAFFOLDING SUPERVISOR

Duration
3 days

Attendees

This course is aimed at those who are responsible for the supervision, direction and instruction of scaffolding operations e.g. Chargehands, Foreman, Supervisors, Contract Supervisors and Management.

Objectives

To give the attendees such knowledge and skills to enable them to supervise, monitor, direct and instruct scaffolders for scaffolding operations.

Certification

Successful delegates will receive a Scaffold Supervisor Certificate of Training and Record Card.

Course Content

- Legal Overview (Local Regulation for the country or region)
- Performance Standards
- Communication Skills (Including Task Briefing & Toolbox Talks)
- Supervisory Skills
- Design Appreciation
- Theory Tests
- Practical Exercises (Clint brief, Risk assessment, Method statement & Toolbox Talks)
- Risk Assessment Project

SYSTEM SCAFFOLDING PRODUCT TRAINING

(KWIKSTAGE/FINELOCK/CUPLOCK/PERI UP/LAYHER)

Duration

2 days

Attendees

This course is for operatives using or going to use the system scaffold.

Objectives

To give the attendees such knowledge and skills to enable them to erect, alter and dismantle, in accordance with the System Scaffolding Product Training Scheme Criteria and Manufacturers Recommendations.

Certification

Successful delegates will receive a Completion Certificate. If candidates are already CISRS trained to Level 1 or above they will be able to get their card endorsed.

Course Content

- Introduction, welcome and registration
- Basic Product Information and Manufacturer's instructions
- Legal Overview – Health and Safety
- British & European Standards
- Guidance and Industry Standards
- Component Range
- Basic system(s) of work
- Bracing Requirements
- Ties, Stability and Tie Patterns
- Loading & Duties
- Access Towers - Theory and Practical
- Independent Tied Scaffolds (including return and hop-ups)
 - Theory & Practical
- Birdcage Access Scaffolds
 - Theory & Practical
- Loading Towers – Theory & Practical
- Methods of Access and Egress (including stairways) – Theory & Practical
- Test Paper
- Summary, Course Evaluation & Close

SCAFFOLD REFRESHER TRAINING & CARD RENEWAL

International Certificates and Record Cards expire after 5 years, to renew their certificates and cards holders need to attend a 2 day scaffolding refresher training course or progress to the next level of the scheme e.g. Basic Scaffolder to Intermediate Scaffolder.

Upon successful achievement of an International Scaffolder training course the delegate will automatically receive an updated Record Card endorsed with their training record on the back. The International Scaffolder Database will also be updated.

Level 1

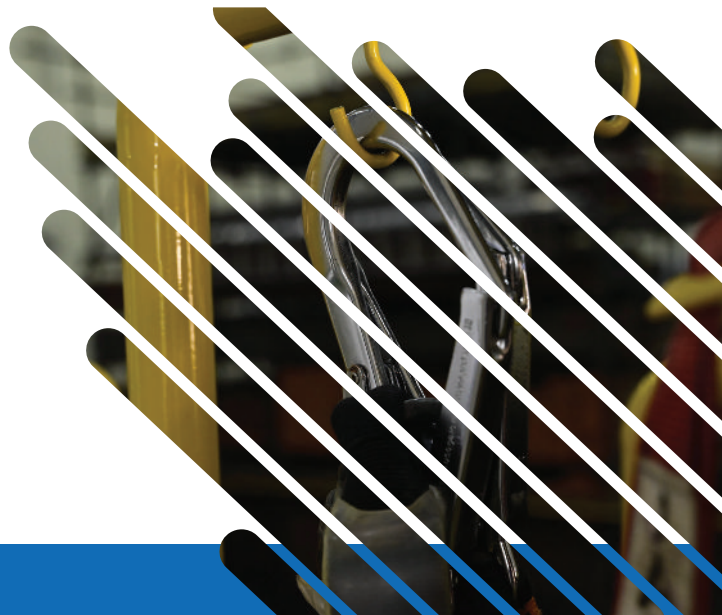

To renew this card the candidate must attend a further five days Level 1 course.

Candidate can only renew this card once only, at the next renewal they must move up to the Level 2 course.

Level 2

To renew this card the candidate must attend five days Level 2 refresher course.

Candidate can only renew this card once only, at the next renewal they must move up to the Level 3 course
